IN THE STONE
INDUSTRY

GET THE AARDWOLF AADVANTAGE

Built on understanding the stone industry's needs, Aardwolf Industries has been more than just a manufacturer for over three decades. We partner with stone fabricators and distributors worldwide.

Our commitment goes beyond producing over 350 high-quality tools and machines. We study the challenges, workflows, and priorities of the stone industry to create solutions that directly address what matters most: safety, efficiency, and profitability.

Stone fabricators face unique daily challenges—lifting heavy material safely, maximizing shop productivity, and ensuring every project meets the highest quality standards. Aardwolf understands these pain points because our roots are in the industry itself.

Mr. James Corbett, who owned and operated two large marble and granite processing companies in Australia, developed the first Patented Lifting Clamp for marble and granite in 1995. This innovation reduced workplace risks and sped up production, laying the foundation for Aardwolf Industries as a trusted problem-solver for stone professionals.

Aardwolf's heritage, combined with our continuous investment in research, development, and manufacturing, has made us a leader trusted by professionals who demand tools built by people who genuinely understand the stone industry.

To explore our full range of solutions, visit our website at aardwolf.com.au or contact us via info@aardwolf.com.au to learn how Aardwolf can help your business work with safety, efficiency, and profitability.

AUTO LOCK

The Locking Pin automatically locks alternatively, making it easy to raise and lower the slab.

MANUAL UNLOCK

Pull down the Locking Latch to release the Locking Pin for lifting slab materials.

SMART ROLLERS

Adjusts the Lifter's position along the slab easily.

AARDWOLF TWISTER

KEY FEATURES

- ★ Operated by a single user without ground assistance
- ★ 360° bi-directional rotation controlled remotely
- ★ Compatible with Aardwolf Slab Lifters, Glass Lifters, forklifts, and truck-mounted crane
- ★ Reinforced frame with impact resistance and antenna protection
- ★ LED indicators for battery level
- ★ Compact design suitable for confined spaces
- ★ Working Load Limit (W.L.L.): up to 2,646 lbs

FLEXIBLE CONNECTION

Works with forklifts, truck cranes, and Aardwolf Slab Lifters.

MSS02

360-DEGREE ROTATION

360-degree rotation capability for precise placement, operated by remote control.

Net Weight

31 kg/ 68 lb

SCISSOR LIFTERS

Aardwolf Scissor Clamp Lifters are engineered for safe, vertical lifting of heavy materials like stone, concrete, and retaining wall sleepers. They are widely used in construction, fabrication, and landscaping, with common features across models.

KEY FEATURES

- ★ **Gravity-controlled auto-locking systems:** Engage during lifting, releases when set down — no manual intervention needed.
- ★ **Replaceable high-friction rubber pads:** Ensure grip and protect material surfaces. Powder-coated safety yellow finish.
- ★ **Heavy-duty steel construction:** Powder-coated yellow for visibility and rust resistance.
- ★ **Crane hook:** Central position for stability and safe crane/ forklift attachment.

OPTIONAL EXTRA: SHORT CHAIN AND SHACKLE

Enhance flexibility on construction sites and reduces strain on the locking pin during operation.

SCISSOR LIFTERS

ASL105

Compact, precise centering, ideal for retaining wall sleepers.

ASL125

Slightly larger grip range than ASL105.

ASL200

Higher capacity, extended grip for larger materials.

ASL300

Great for varied material sizes and heavy-duty lifting.

ASL450

Largest grip range, heaviest-duty usage.

TURF PAVING BLOCK LIFTER TPBL600

The Turf Paving Block Lifter from Aardwolf is an innovative tool designed to significantly enhance paving efficiency, with the capability to install four blocks at once. This feature is particularly beneficial for large-scale landscaping projects, where time and precision are of the essence.

Grip Range

100-600 mm | 4"-23 5/8"

Working Load Limit

1200 kg/ 2646 lb

SCISSOR CLAMP LIFTER SHORT CHAIN & SHACKLE

Designed by Aardwolf specifically for its range of Aardwolf scissor clamp lifters. Forged from high-grade aluminium. Combination lifting lug, chain and Aardwolf swivel shackle.

- ★ Allows flex between the boom and load.
- ★ Helps prevent slipping when traversing rough terrain.

Working load limit

1500 kg / 3307 lb

Net weight

1.5 kg / 3.3 lb

ROCK GRAPPLES

- ★ **Increased Efficiency:** Automating stone lifting operations dramatically reduces manual effort, speeds up project timelines, and boosting productivity.
- ★ **Enhanced Safety:** By eliminating manual handling, the Aardwolf Rock Lifter significantly reduces the risk of injuries, creating a safer work environment.

MISCELLANEOUS VACUUM LIFTING EQUIPMENT

VACUUM LIFTER WITH PETROL FUELED ENGINE

► KEY FEATURES

- ★ Compact and robust structure
- ★ Integrated vacuum gauge for monitoring vacuum leaks
- ★ Lifting eye for easy attachment to a mobile crane
- ★ Slide valve with ON/OFF position for gripping and releasing material

PRODUCT CODE	Pad Sizes	Working load limit
APVL-1000	800 x 500 mm 31 1/2" – 19 3/4"	1000 kg/ 2204 lb

VACUUM LIFTER PARKING STATIONS

Parking Stations can be used in combination with the AVLP range of vacuum lifters. Parking stations mounted on wheels are ideal for moving vacuum lifters to a safe storage area when not in use. They allow vacuum lifters to be parked without the vacuum pads coming into contact with the floor, workbench or other surfaces that could damage the vacuum pads.

PRODUCT CODE	Packaging dimensions
PSAVLP1	840x400x200 mm 33 1/8"x15 3/4"x7 7/8"

PSAVLP	840x400x200 mm 33 1/8"x15 3/4"x7 7/8"

GLASS VACUUM LIFTERS

DC POWERED VACUUM GLASS LIFTER

KEY FEATURES

- ★ 360-degree manual rotation with 45-degree increments
- ★ 90-degree manual tilting
- ★ Integrated instrumentation for monitoring vacuum levels and energy supply
- ★ Visual and audible warning system
- ★ High-capacity 12-volt battery power supply
- ★ Extension arms for handling large sheets

KITCHEN INSTALLATION CART

KEY FEATURES

- ★ Equipped with transfer bearings located on the table surface, the countertop can be rolled into place without friction and strain.
- ★ The product comprises three actuators for lowering, lifting, and tilting workpieces.
- ★ Includes both fixed and adjustable sections to accommodate countertops of various sizes.
- ★ Powered by 24V rechargeable Lithium - Ion battery.

VERSATILE MOVEMENT CAPABILITY

The cart is designed to lower, lift, and roll large workpieces, aiding in the final placement of countertops.

WIRELESS REMOTE CONTROL

Enhances ease of use by allowing the operator to control the cart remotely.

CONTROL BOX

It runs on a 24V rechargeable lithium-ion battery, providing reliable and long-lasting power.

FORKLIFT BOOMS

KEY FEATURES

- ★ The boom is firmly secured onto fork blades by two bolts located at the back of each fork pocket and restraint pins.
- ★ Easy to adjust lengths for many different load capacity levels.

FLEXIBLE CONNECTION

Works with forklifts and lifting clamps to move slabs.

EASY TO ASSEMBLE

The Boom is fixed firmly to forklift by Hexagon head screws.

WATER RECYCLING

SLUDGE DEHYDRATOR FILTER - ASDF1

- ★ **Fast Dehydration:** Efficiently collects and traps abrasive mud from stone processing.
- ★ **Cost-Effective:** One-step solution for separating and dewatering sludges.
- ★ **Durable:** Stainless steel construction ensures long-lasting performance.
- ★ **Low Maintenance:** No moving parts for minimal upkeep.
- ★ **Easy Operation:** Simple design with four key components for hassle-free use.

Dimensions	227 cm x 222 cm x 60 cm
Weight	280 kg / 617 lb

STONE & GLASS STORAGE RACKS

BUNDLE RACK 3M RUBBER-TOPPED

► KEY FEATURES

- ★ **Rubber-Topped Surface:** Improves friction and protects against chipping and slippage.
- ★ **Heavy-Duty Steel Construction:** Built from galvanized steel with a yield strength of 345 MPa.
- ★ **Customizable Post Positioning:** Rectangular holes allow flexible post arrangement along the rail.
- ★ **Post Height Options:** Compatible with post heights of 1200, 1400, and 1600 mm.
- ★ **Optimized for 4° Lean Storage:** Supports safe and efficient slab stacking at an industry-standard angle.

PRODUCT CODE	Rail Length	Tube Post	Net Weight of Each Rail
