ABOUT

AARDWOLF INDUSTRIES LLC

AARDWOLF
INDUSTRIES LLC

**HAS A RICH VARIED HISTORY
BEGINNING MORE THAN 28 YEARS AGO.**

AARDWOLF
INDUSTRIES LLC

has transitioned through a number name changes and locations, but always with the same CEO, James Edmund Corbett, the business founder: Aardwolf is a manufacturing business originally established to manufacture tools and equipment for the marble & granite industries.

However, the business has expanded in more recent times and now provides tools and equipment to the glass and sheet metal industries. Today  **AARDWOLF** INDUSTRIES LLC is recognized as a world leader in its field with outlets and distributors worldwide.

HISTORY THE INCREDIBLE JOURNEY

the REAL MCGOY

The CEO, James Edmund Corbett, invented & patented the compact slab lifting clamp now known as the Aardwolf Lifter, an invention used for moving & handling marble, granite, engineered stone, etc.

Terminates business venture in Vietnam under the brand name Aardwolf.

The Aardwolf Lifter is the most widely used slab lifting clamp in the stone industry in the world today.

This began a period of strong, sustainable development for Aardwolf.

1993

1995

1998

2001

The business started in Sydney, Australia under the name of Herdgraph Pty. Ltd, manufacturing machines for the marble and granite industries.

Set up a factory in Vietnam to manufacture the patented lifting clamp and other material handling equipment.

The demand for production has increased rapidly in recent years, Aardwolf company continues to expand its production scale through the establishment of a second factory in Vietnam with a total factory area of more 5,000sq.m with over 200 employees.

With this second factory, Aardwolf plans to serve hundreds of clients, partners, and suppliers around the world with tens of thousands of products shipped. Aardwolf will continue to reach out and assert its position as the world's leading manufacturer of equipment for the stone, glass, steel, and construction industries.

And now, after nearly 30 years of development, Aardwolf has been improving, applying high technologies to manufacture & supply high-quality equipment and tools for the stone, glass, steel, and other materials industries.

Aardwolf supplies for large markets around the world as the USA, Canada, Australia, Germany, Italy, Bulgaria, Great Britain, Korea, India, Thailan... with more than 350 products such as Aardwolf Slab Lifters, Vacuum Lifters, Slab Lifting Clamps, Pipe Lifters, Transport Frames, Glass Lifting Clamps, Slab, and Bundle Racks, Forklift Booms, Self-locking Trolley, Load Handling Attachments, and others...

2016

Opened branch company & commenced construction of factory in Kishangarh, Rajasthan India to service the market of this country.

2018

Established Aardwolf Bulgaria.

2019

Established Aardwolf USA in L.A. California.

Aardwolf has conquered this vast market through orders worth millions of dollars.

2021

TEAM WE WORK HARDER & SMARTER FOR YOUR MORE CONVENIENT, EASIER & SAFER.

The professional team work together and move forward with passion, aspiration, and ambition to reach No.1 in the world in manufacturing the handling material equipment for stone, glass, steel, and construction industries.

We continuously create unique products on the market to supply the solutions for reducing injuries and optimizing effective working and saving-cost for our partners and customers.

CORE & VALUES

THE AARDWOLF AADVANTAGE

Aardwolf has been selling a lot of products to customers. We not only become their great partner, but also we contribute to their development and success through quality products with reasonable prices. Using Aardwolf's products allow them to optimize workability, save labor, and complete the job more safely.

Our vision is to bring high-quality products to partners & customers around the world. Aardwolf is a leading manufacturer of lifting and handling equipment and tools for the construction industry.

PRODUCT RANGE

AARDWOLF
INDUSTRIES LLC

| **MORE THAN 350...**

Expanding production with investment in the latest modern equipment, Aardwolf can manufacture mass-produced accessories to finished products quickly, synchronized, and ensure high-quality products.
