1. INTRODUCTION

Aardwolf has created a new innovative device, the Lifter Twister. This device works with the Aardwolf Slab and Glass Lifters, forklifts and truck cranes to lift and move stone and glass sheets. The Twister is equipped a remote control that allows the user to independently perform all of the lifting and moving operations safer, faster and more conveniently without the assistance of a handler on the ground. The user can observe and manipulate the slab's movement right from the forklift by using the remote control with one hand.

2. SPECIFICATIONS & FEATURES

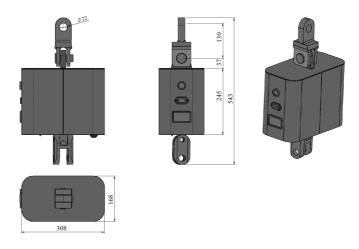

2.1 SPECIFICATIONS

| PRODUCT | LIFTING | NET | GROSS | PACKAGING |
|---------|----------|-----------|----------|--------------------|
| CODE | CAPACITY | WEIGHT | WEIGHT | DIMENSIONS |
| MSS | 1200 kgs | 30.07 kgs | 35.5 kgs | 350 x 205 x 480 mm |

2.2 FEATURES

- Allows moving and handling slabs as a one-man operation.
- Can be rotated 360-degree in either direction by remote control.
- The remote control is operated via radio frequency with a distance of up to a 100m when not separated by obstacles, walls and other opaque barriers.
- 9V rechargeable battery for the remote control with the usage time of up to one year.
- Non-stop working time of 12 hours.
- · Battery level indicator.
- Reduces the risk of injury for the worker. They can stay on their forklift truck and control the operations outside the fall zone.

3. DIMENTIONS OF THE TWISTER

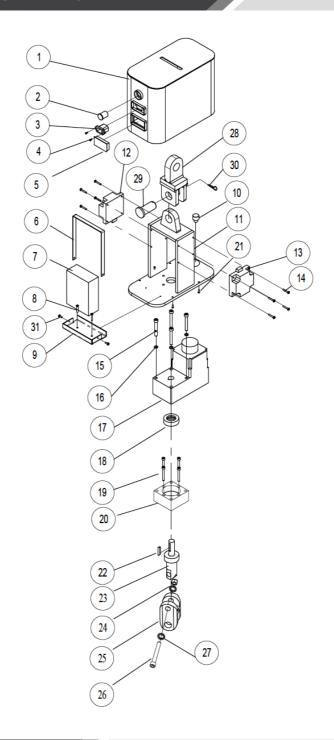

4. SAFETY INSTRUCTIONS

Please make sure you read the user's manual completely before operating the Twister:

- Ensure that the manual is available during operation.
- Carefully read the lifter manual before operating.
- Determine whether the capacity of a crane or hoist is suitable for use with the Twister.
- Always ensure the Twister is attached tightly with a crane or forklift boom.
- DO NOT exceed the working load limit shown on the lable of the Twister to eliminate any risks for the user, material and attachment or the lifter.
- DO NOT raise a load over people or allow anyone to stand or reach beneath a suspended load.
- Perform the load test to ensure the Twister (combined with lifter) is safe before using.
- Inspect the battery level before lifting the load.
- Make sure that there are no obstructions during the working process.
- Operate only by competent and authorised personnel.
- Never operate the Twister if the labels for load capacity or any other warnings are missing or obscure and unclear.
- Never use the Twister in dangerous environments.

| MSS-029 | 29 | Coupling pin | 01 | |
| MSS-030 | 30 | Cotter pin | 01 | |

6. OPERATING INSTRUCTIONS

- **Step 1:** Hook the Twister to a crane or Aardwolf's Forklift Boom and then hook the Aardwolf Lifter to the Twister for starting the lifting process.
- **NOTE:** If the Twister is hooked to a crane, the operator needs to use the bow shackle to attach it into the lifting eyes of the Twister.
- **Step 3:** Turn the power button on, which is located on the body of the Twister.
- **Step 4:** Inspect the battey level (Battery Display) to make sure that it is fully charged.
- **Step 5:** Use the remote control of the Twister to rotate the lifter system so that it is aligned with the slab.
- **Step 6:** Place the lifter system onto the slab and then move the slab to the desired location.

NOTE:

- If you want to rotate the lifter system to the right direction, you just press the "A" button on the remote control and then lifter system will rotate.
- If you want to rotate the lifter system to the left direction, you just press the "B" button on the remote control and this lifter system will rotate.

7. INSPECTIONS AND MAINTENANCE

The Twister does not require maintenance on a routine basis. However, the user needs to inspect its condition before using. This could be performed every day, every week, every month, and whenever the fork has the indicated faults, damage, or abnormalities.

8. WARRANTY

The Twister is warranted for one year from the date of purchase to be free of manufacturing defects in material and workmanship. This warranty does not cover normal wear of parts or damages resulting from any of the following: negligent use or misuse of the product, use or application contrary to installation instructions, or disassembly, repair or alteration by any person prior to authorization from a factory representative.
